

Hamidreza Farhadipour

Data Scientist | M.Sc. Student in Computer Science | ML Researcher

contact@farhadipour.com · farhadipour.com · github.com/hrfpour · Tehran, Iran

SUMMARY

Data Scientist and M.Sc. student in Computer Science focused on network traffic analysis, time-series modeling, and anomaly detection. Experienced with Python, scikit-learn, PyTorch, and building interactive analytics dashboards. Passionate about interpretable machine learning and bridging the gap between raw data and actionable insight.

EDUCATION

M.Sc. in Computer Science - University of Tehran 2023 - Present

- Focus: Data Science & Machine Learning
- Thesis: Deep learning approaches for anomaly detection in high-volume network traffic

B.Sc. in Computer Science - University of Isfahan 2019 - 2023

- Final project: real-time network traffic classification with ML

EXPERIENCE

Graduate Research Assistant - Data Science Lab, University of Tehran 2024 - Present

- Leading research on ML-based anomaly detection for network telemetry.
- Co-authoring journal & conference papers; maintaining benchmark suite.

Data Science Intern - Tech Startup, Tehran Summer 2023

- Built churn-prediction and reporting pipelines; automated KPI dashboards (-70% manual work).

PUBLICATIONS (SAMPLE)

- Statistical and Deep Learning Approaches for Anomaly Detection in High-Frequency Network Traffic - under review, 2025.
- LSTM-Based Sequential Modeling for Real-Time Intrusion Detection - CSICC, 2024.
- Interpretable Time-Series Anomaly Scoring with Attention - arXiv preprint, 2024.

SKILLS

- Languages & Core: Python, SQL, R, Bash, Git
- ML / DL: scikit-learn, XGBoost, PyTorch, TensorFlow, LSTM, Anomaly Detection
- Data & Viz: Pandas, NumPy, Plotly, Matplotlib, Streamlit, Jupyter
- Tools: Linux, Docker, PostgreSQL, FastAPI, LaTeX
